4.50.025-AD Accident Insurance

(1) In the interest of providing parents of district students with the opportunity of purchasing insurance protection for their children in the event of dental or other accidents, the Board maintains agreements with the district's insurance agent of record for insurance programs applicable to accidents occurring during the school day, to and from school, and full-time coverage.

(2) Information of this opportunity should be distributed to students in the respective schools at the beginning of each school year and information and application materials made available for students to take home. Schools shall not be responsible for receiving monies or such other procedures necessary to the management of these insurance programs. They shall be involved only to the extent of distributing insurance information and the application forms to students at the beginning of each school year and completing necessary claims forms in case of injury of insured students. Students and parents themselves shall be responsible for mailing applications directly to the appropriate insurance agency.
