

Administrative Directive

5.20.102-AD

5.20.102-AD Disease Control

- (b) If a staff member identified as being infected by hepatitis B or AIDS is in a building setting which exposes persons medically at high risk to the disease or in a setting where there are persons who, because of physical, mental, or emotional immaturity, cannot control their contact, the employee shall be temporarily excluded pending development of a plan or other administrative action.
