

DIVISION 06 – WOOD, PLASTICS AND COMPOSITES

Historic: Competency of Bidder Clauses should be included. Pre-design documents should identify historic woodwork

Follow the Secretary of Interior's Guidelines for Rehabilitation of Historic Buildings. Historic wood species may not be available in quantity to replace existing wood components. Retaining and repairing wood trim and components is preferred. Clear finishes are not reversible –they cannot be removed without damage to the wood. Careful evaluation of proper finish coats is required.

Sustainability:

E. Cabinets

1. Match or coordinate with existing cabinet finishes when adjacent.
2. Construction shall be plywood or particleboard to meet Architectural Woodwork
