B. "I favor WEST east facing opt. views + added plaza area opportunity outweigh proximity to prkg."
C. "Put # parking space on each plan"
D. "Prioritize the experience and views of the HS students, more than the view of the ES student" (presumably ES is elementary school)
E. "This is better. East location would be too dark for middle of campus"
F. "I prefer this feels more open, less cluttered, & a better spacing or use of space."
G. "Grandstand on the west for safety. Need to see students on the field during the day."
H. "West side stands - no brainer"
I. "If we minimize the view of the shared parking we need to determine how we will monitor traffic. There have been multiple instances where my child or I were hit by a car"
J. "I like the west opt. is better bc there is a better view out to the west from the plaza."
K. "Bathrooms for softball + lacrosse +++ YES"
L. "Fight for a Grandstand cover"
M. "Putting the grandstand next to the school seems more practical, but it also seems to divide the campus into two halves"
N. "West side! Open facing from campus, ugly side is hidden, limits sun exposure"
O. "West side is preferred!"
P. "I like the open area and view of the field from putting stands facing east. The additional distance to reach them is definitely a disadvantage."
Q. "West side preference - space between field and school will be so much better - Rieke side - they will have to look away from their school and up anyhow - spectator experience will be better - opportunity to have a nice walkway/promenade around the field to the stands (see Lincoln high for ideas)"

50 EQPEGRVWCN"OCUUKP I "CPF"HCDCFG"

A. "I like #1, 4 &5. 2 is too similar to Lincoln, 3 is too dark, & 6 is too drab."
B. "Could the weave or transparency help to ease the shape?"
C. "Need to break-up the lateral aspects of the weave otherwise it starts feeling office building or jail. 1,2,6 good for colors"
D. "I like colors on #1, 3, & 5, 4 seems too cold, 6 seems too bland"
E. "I like #1, 3, &5 for color. No #2 cause red isn't a school color! No #4 or #6 = They feel "officy" to me!"
F. "Can we have more windows like current building?"
G. "The potential façade materials did not include large glass fronts? Is that not an option"
