SUPERINTENDENT'S REPORT

October 29, 2012

Department of Education (ODE) provides data to the district and that they have not updated the attendance 2011/12 data. He could calculate a number, but it may not match ODE's. ODE only provided us data for the 2010/11 school year.

Director Regan stated that in terms of local priorities, she thought we considered the possibility of keeping our 7th grade writing priority. Superintendent Smith responded that that subject had gone away completely, but the District was working with other school districts who want that assessment returned. Director Regan asked why we were only looking at a 3% increase in the graduation rate. Superintendent Smith responded that the methodology was used from the White Paper which was the culmination of many districts. PPS has not yet set a target for the graduation rate, so the methodology determined that number. The methodology determined the number based on the back mapping from our current number to get to 100% graduation rate by 2025. Director Sargent commented that she was concerned about setting the graduation target in this manner. This was a high priority for her and the 3% goal was not enough for her. Director Sargent recommended 5% for the goal. Director Knowles asked if we went for the 5% goal, wouldn't all figures that we will be submitting to the state have to be changed. Director Adkins stated that she was not feeling too confident with the state; work is being performed in absence of investment. She has a distrust in this process and would prefer to have more of an internal discussion to see if we want to set a more aggressive milestone. Superintendent Smith commented that, as a District, we will continue to use our 5% goal; to provide another set of numbers in the resolution would be muddying the waters somewhat. Co-Chair Gonzalez agreed that we should keep our numbers separate from the state. Director Knowles questioned what would happen if the District did not meet its goals as provided to the state. Superintendent Smith responded that she did not know and that was why we were being conservative with our numbers. There is a difference between a compliance document with the state and how the District is driving its milestones. We will continue to track both targets. Director Morton concurred, stating that the ODE document is just one of hundreds that we provide to the state; however, none of them have any relationship or bearing on our milestones. The milestones are our aspirational goals and that is what we need to be focused on. Director Morton added that he supports the resolution as written. Co-Chair Gonzalez stated that he did not hear a majority of the Board wanting to chan
